

OUR PROMISE TO YOU

Our practice is based on the simple truth that if we satisfy and delight our patients, they will get well faster and be more likely to tell others about their chiropractic experience. This avoids costly advertising and helps keep our fees reasonable.

Since chiropractic results vary, we can't guarantee results, but we can promise your satisfaction.

So, if within 7 days of beginning care you are not completely happy with your decision to begin chiropractic care, we will happily refund any money you've paid us towards treatment. (Exams and X-Rays excluded)

Since most spinal problems involve muscles and soft tissues, which are slow to heal, continued chiropractic care is often required for maximum improvement. However, within this trial period, we expect you will know that consulting our office was a wise decision.
